

HOW CAN I HELP MY CHILD IN Health and Food Technology?

Higher and N4 & 5

- ✂ A high rate of attendance and participation is essential for course completion due to the practical nature of the course.
- ✂ Ensure homework is at least attempted for the due date.
- ✂ If absent or if any work is missed, it is the responsibility of the individual pupil to find out what they have missed and collect the relevant notes.
- ✂ **BOTH** theory work and ingredients/equipment for practical lesson/classes must be brought as requested.
- ✂ Encourage your child to revisit the work undertaken in class regularly.
- ✂ Encourage your child to seek clarification on anything they are not sure about.
- ✂ Practical cookery at home, if possible, is always beneficial.
